

**This SQL will give you a list that includes member name, and both parents.**

**\*\*\* - It is best to copy and paste the SQL into Word first and then copy and paste from Word into Youth Enrollment.**

Select Youth.lastname, Youth.firstname, Parent.lastname, Parent.firstname

From "Youth2b.db" plink

Inner Join "Youth2b.db" Parent

On (Plink.ParentID = Parent.ParentID)

Inner Join "Youth2a.db" Youth

On (Plink.memberID = Youth.MemberID)

Where (Youth.status = "N" or Youth.status = "R")

Order by Youth.lastname, Youth.Firstname
