Please attach or write below three statements on how the use of your county 4-H endowment interest income impacted 4-H Youth Development programming in your county. For example:

- 70% of youth who completed the Careers Workshop and Tours aspire to complete a four year college education program.
- 35 first year advisors participated in the Advisor Orientation. 75% indicated that they gained skills in managing a 4-H club.
- 80% of the 236 youth who participated in bike safety education increased their knowledge of road rules.

I have reviewed/prepared this statement and attest to its accuracy.
