

2007 CYFAR Military Partnerships Interact Session
Theresa M. Ferrari
Lisa Lauxman

Congratulations! The Interact Committee has selected your topic as an Interact Session for the CYFAR 2007 Conference in Chicago.

As the facilitators, you will make a short presentation (30 minutes) on the topic and then will open up the floor for discussion.

Description

4-H military partnerships have expanded rapidly across the country, serving both Army and Air Force installations and geographically dispersed National Guard and Reserve service members. This will be an interactive session to discuss practical program ideas and resources for those working with military partnerships. Participants will have an opportunity to discuss what has contributed to successes, what areas of challenge remain, and what creative solutions have been or can be employed.
