706 Putting Others in a Box: The Risk of Making Flash Judgments

Whether we admit it or not, we often treat people differently based on our assumptions and biases. That behavior often translates into showing people acceptance, indifference, or avoidance. Research indicates that educators, volunteers and leaders who can effectively understand and work with others who are different increase their chances of connecting and succeeding with their audiences. In this workshop, participants will participate in several exercises from the "Flash Judgments" curriculum, a program designed to help examine basic assumptions and biases toward all people. This interactive session guides participants in a non-threatening manner to examine and identify their own personal hidden biases and judgments. Session 3 - 1:45 - 2:45 p.m.

300 Instead of "Do I have to go?" "I get to go!!!"

Younger siblings get bored, tend to be loud, and most of the time parents don't have a choice but to bring them along. Older members can't concentrate; get distracted by what is going on. Parents are frustrated because they have to keep the younger ones quiet or entertained for an hour or two. What am I talking about?? ..."a 4-H meeting". Consider introducing cloverbuds to children who are K-2nd grade? I have tons of ideas, tips for programs, crafts, games that will make them feel important and want to be part of the group. The great thing is they won't mind going to the 4-H meeting. Limited to 60 participants. Presented by: Karen McDougall

301 Focus on the Future: Help Youth Connect 4-H to Career Goals

According to one recent study, the average high school student gets only one hour a school year to talk with a counselor specifically about career goals. 4-H can offer young people a chance to explore career choices with hands-on activities; make connections with positive adult role models; and receive positive peer support from other club members. But does this happen as often as it could? Session will explore ways to increase the "intentionality" of how 4-H advisors can shape their hands-on club activities to point youth toward greater career success. Limited to 60 participants. Presented by: Greg Siek

Through hands-on activities, participants will learn how to body condition score their own horses. The scoring system will be discussed relative to its use at county and state 4-H horse shows. 314 Are You Building Assets in Youth?

We all want our kids to grow up to be healthy and caring adults. Building these developmental assets in young people can help us to nurture and prepare them to be safe, valued, contributing members of society.
