**HEELWORK-TO-MUSIC (HTM):**

1. A HTM routine should be done with the dog and the handler in close proximity to each other throughout the routine. On all moves, the dog and handler team should move as one entity throughout the routine, displaying heelwork and creativity in the many positions and behaviors possible in HTM.
2. Heelwork is defined as any position between the handler and the dog within 360 degrees radius and includes, but is not limited to: right heel; left heel; face-to-face; face-to-back; back-to-back; back-to-face; and all angled positions between handler and dog within 360 degrees.
3. HTM routines may include:
  - Sustained close-in heelwork sequences, with the dog and handler moving together in sustained parallel position to one another (straight, curved or circular patterns);
  - Moving or stationary close-in heelwork behaviors done next to the other or together (for example, spins, turns, pivots, paws or hands on moves etc.);
  - Close-in connecting moves (either stationary or in motion) that connect heelwork sequences together;
  - Other creative and/or original close-in moves.
4. During heelwork sequences, behaviors, and/or moves the dog and the handler should maintain the same close proximity to each other throughout each type of sequence, behavior, or move. During a move such as a spin, the closest part of the dog's body in relation to the handler (head, shoulder, side, rear) should maintain the same close proximity.

5. The general heelwork position and proximity in a HTM routine will be determined during the first 15 seconds of the routine.
6. Judges will penalize each instance of the loss of the heelwork proximity in HTM routines with .1 to 1.0 point deductions from the Technical Merit (TM)– Precise Execution score, depending on its severity.
7. No distance work should be included in HTM routines.
8. The dog or the handler should not weave through or be in-between the other’s legs or arms in HTM routines. (Note: The dog’s tail is excluded from this).
9. No intentional attempt on the part of the dog or the handler to jump, either horizontal or vertical, should be included in HTM routines.
10. Judges will penalize each instance of distance, weaving / in-between legs or arms, or jumping in HTM routines with .3 to 1.0 point deductions from the Technical Merit (TM) – Content score, depending on its severity.

**MUSICAL FREESTYLE (MF):**

1. Any move is allowed, as long as it does not endanger the dog or handler.
2. Distance work, weaves, jumps, send-outs, and/or innovative new moves are encouraged.
3. Moves may be performed from any position.

---

**MUSICAL INTERPRETATION AND MOVEMENTS OF HANDLER AND DOG:**

In both the HTM and MF styles, the movements of the handler/dog team should be in time with and match the style or theme of the music being played. In some cases, the movements will be in the form of dance steps and body positions. In other cases, as in a theatrical or story-telling routine, the team will be performing interpretive movements, moods, and/or expressions to match the music selected. With each higher level of competition, the team will be expected to perform a higher quality / level of interpretive movements in their routine.

**FOR ALL ROUTINES:**

1. All handlers are responsible for checking in with the music desk before the event with 2 copies of their music, labeled with competitor's name, division, and music

selection. Music may be either on cassette tape (to start at the beginning of the tape) or on CD (with track number of selection clearly labeled).

2. Music checks will be available immediately before each competitor's routine, to insure that the volume is at the competitor's preferred level prior to the performance. It is recommended that competitors use the music checks conscientiously, as placement of the speakers may be different at each event and may affect the dog's performance. Toys and/or training aids (other than food/food treats) may be used in the ring during music checks.
3. No food (animal or human), treats, bait, or training aids are allowed in the ring while a routine is being judged. Violations will result in the routine being disqualified.
4. The routine will be performed in an area 50' x 50'. For State show, the ring size is approximate in the lower area of a stadium seating arena.
5. In the instance of a sound system failure, show coordinators will insure that each competitor receives a fair, complete, and uninterrupted performance of their routine.
6. The routine must start, continue, and finish within the confines of the ring area.
7. Use of Ring Space: The goal with this, for all routines, is for the dog(s) and handler(s) to cover as much of the total ring area as possible, presenting moves in various areas of the ring and balancing the routine throughout the ring space. The expectation for how much ring space should be covered is at least 50% of the total ring area.
8. All movements of the dog(s) should appear natural and safe for the dog to perform. There should be no intentional held or forced movement of the dog(s) by the handler(s).
9. In the "Pairs" and "Team-Trio" divisions, the handler and dog teams may switch partners with other members in the routine, at any time during the routine.
10. With On Leash entries, the leash must not be dropped more than 25%, or the routine will be disqualified.
11. On Leash and Off Leash entrants will be judged by the same criteria, except for the specific 'tight leash' and 'dropping of the leash' rules for On Leash competitors.
12. In division levels where entrants are given choice to do their routine either On or Off leash, all On and Off leash competitors of each division level, together, compete for placements.

13. The judging time of the routine will start when either the dog or handler begin to move (not when the music starts). The time will stop when both the dog and handler have stopped moving / the ending pose of the routine, or when the 15-second over time is reached, whichever comes first.
14. Audience applause and feedback is always welcome and expected at all events. A competitor or their associate must not request that the general public hold applause during and/or after performances.
15. Canine freestyle is a team sport, with handler(s) and dog(s). In all divisions, the **handler and dog** will be judged and scored as one unit.
16. Music should portray the relationship between the dog and handler and show personality of dog. Discretion should be used in selecting music. Music must show good taste and should not be offensive or suggestive in language.

#### **HANDLER COSTUMES AND DOG ATTIRE:**

##### **HANDLERS:**

1. Handler Costumes are permitted and should be suited to the theme of the music. If the music does not have a theme, costuming is at the discretion of the handler.

3. Costumes must not be offensive or sexually suggestive. A violation of this will result in the routine being disqualified.
4. Costumes should be done in good taste showing the theme of music and routine. The following is strongly discouraged: short shorts and skirts, tight sweaters, low necklines, bare midriff and belly for girls and bare chests for boys. Costume should not distract, limit, or hinder judge's view of dog.

5. Time allotment for set up and taking down of props is 30 seconds and must be done by the handler only. A violation of this will result in a deduction of 1.0 point from the Total Technical Merit (TM) score and 1.0 point from the Total Artistic Impression (AI) score.

6. No Human or Animal Props are allowed in competitive divisions. A violation of this will result in the routine being disqualified.

8. When a prop or other item is used/presented in the routine, the dog's demeanor and/or drive should not change markedly. The dog's eyes or head should not follow a prop/item significantly. A violation of either of these will result in the routine being disqualified.
