2017 Project Interview Questions

The 2017 Project Interview Questions are now posted on the 4-H Intranet Resources page under Publications. Questions are based on the content of each project book and when possible include page references where answers can be found. In many counties, these questions are shared with judges to be used as is or as models for their own questions. Be sure to share the cover page and, if appropriate, the general 4-H questions too! Because self-determined and master projects are so individual, questions for those projects are not included. Please do not make this document generally available on your website, to your volunteers, or to your 4-H members! It is intended to be distributed a project at a time to your judges as appropriate. Share questions, comments, or corrections with Jane Wright (614-292-0909, wright.646@osu.edu) or Annie Steel (614-688-1934, steel.46@osu.edu).

Your judges also might benefit from having the newly revised *Interviewing Tips for Judges* (Thanks Katie Feldhues!), now available as a fact sheet at ohioline.osu.edu/factsheet/4h-36.

Forestry Competition

The deadline is approaching for the State 4-H Forestry Competition and we are trying to determine how many counties have individuals and/ or teams of youth that have expressed interest. This is by no means a commitment I am just trying to get a gauge of how many possible teams we might have attending. The contest is June 23 at Hocking College in Nelsonville. Two STEM Project Books Pass National Peer Review
